

The Journal of 600 Experimental Biology

EDITED BY

J. GRAY

ASSISTED BY

THE HON. SECRETARIES, SOCIETY FOR
EXPERIMENTAL BIOLOGY

VOLUME XXV

CAMBRIDGE

AT THE UNIVERSITY PRESS

1949

Published for the Company of Biologists, Limited

First printed in Great Britain at the University Press, Cambridge

Reprinted by litho-offset

by Percy Lund Humphries & Co. Ltd.

and published by the Cambridge University Press

Cambridge, and Bentley House, London

Agents for U.S.A., Canada, and India: Macmillan

CONTENTS

No. 1. MARCH 1948

	PAGE
V. B. WIGGLESWORTH. The functions of the corpus allatum in <i>Rhodnius prolixus</i> (Hemiptera). (With Plate 1 and Four Text-figures)	1
LORD ROTHSCHILD. The physiology of <i>Echinus esculentus</i> spermatozoa. (With Four Text-figures)	15
J. R. ERICHSEN JONES. A further study of the reactions of fish to toxic solutions. (With Nine Text-figures)	22
BARBARA M. WALSHE. The oxygen requirements and thermal resistance of chironomid larvae from flowing and from still waters. (With Three Text-figures)	35
A. F. HUGHES AND M. M. SWANN. Anaphase movements in the living cell. A study with phase contrast and polarized light on chick tissue cultures. (With Plates 2 and 3 and Thirteen Text-figures)	45
LEWIS DAVIES. Laboratory studies on the egg of the blowfly <i>Lucilia sericata</i> (Mg.). (With Three Text-figures)	71
LEWIS DAVIES. Observations on the development of <i>Lucilia sericata</i> (Mg.) eggs in sheep fleeces. (With Seven Text-figures)	86

No. 2. JUNE 1948

W. E. AGAR, F. H. DRUMMOND AND O. W. TIEGS. Third report on a test of McDougall's Lamarckian experiment on the training of rats. (With Two Text-figures)	103
BEVERLEY A. HUMPHREY AND GEORGE F. HUMPHREY. Studies in the respiration of <i>Paramecium caudatum</i> . (With Three Text-figures)	123
F. V. GRAY. The absorption of volatile fatty acids from the rumen. II. The influence of pH on absorption. (With One Text-figure)	135
A. D. LEES. The sensory physiology of the sheep tick, <i>Ixodes ricinus</i> L. (With Thirty-one Text-figures)	145

No. 3. SEPTEMBER 1948

F. W. ROGERS BRAMBELL, MEGAN HENDERSON AND IVOR H. MILLS. The experimental induction of prenatal mortality and the subsequent elimination of the dead embryos in rabbits. (With Two Text-figures)	209
LORD ROTHSCHILD. The activity of ram spermatozoa. (With Plate 4 and Four Text-figures)	219
L. E. R. PICKEN AND LORD ROTHSCHILD. Vapour pressure changes in the frog's egg at fertilization. (With Two Text-figures)	227

	PAGE
K. A. KERMACK. The propulsive powers of blue and fin whales	237
F. W. ROGERS BRAMBELL AND IVOR H. MILLS. Studies on sterility and prenatal mortality in wild rabbits. Part IV. The loss of embryos after implantation. (With Seven Text-figures)	241
H. BARNES AND F. A. STANBURY. The toxic action of copper and mercury salts both separately and when mixed on the harpacticid copepod, <i>Nitocra spinipes</i> (Boeck)	270
K. A. PYEFINCH AND JOAN C. MOTT. The sensitivity of barnacles and their larvae to copper and mercury. (With Six Text-figures)	276
R. J. PUMPHREY. The theory of the fovea. (With Ten Text-figures)	299

No. 4. DECEMBER 1948

R. J. O'CONNOR. The measurement of the oxygen consumption of <i>Daphnia</i> by a modification of the Cartesian diver technique. (With Two Text-figures)	313
R. H. J. BROWN. The flight of birds. The flapping cycle of the pigeon. (With Plates 5-8 and Twelve Text-figures)	322
MARTIN LÜSCHER. The regeneration of legs in <i>Rhodnius prolixus</i> (Hemiptera). (With Plate 9 and Seven Text-figures)	334
LORD ROTHSCHILD. The physiology of sea-urchin spermatozoa. Lack of movement in semen. (With Two Text-figures)	344
LORD ROTHSCHILD. The physiology of sea-urchin spermatozoa. Senescence and the dilution effect. (With Five Text-figures)	353
D. M. STEVEN. Studies on animal carotenoids. I. Carotenoids of the brown trout (<i>Salmo trutta</i> Linn.). (With Six Text-figures)	369
H. HELLER AND B. SMITH. The water-balance principle of crustacean eye-stalk extracts. (With Four Text-figures)	388
J. W. B. DOUGLAS, D. A. HANSON AND S. ZUCKERMAN. The effect of sex-hormones on the performance of a learned response. (With Three Text-figures)	395
J. A. KITCHING. The physiology of contractile vacuoles. V. The effects of short-term variations of temperature on a fresh-water peritrich ciliate. (With Five Text-figures)	406
J. A. KITCHING. The physiology of contractile vacuoles. VI. Temperature and osmotic stress. (With Six Text-figures)	421
